

# Animal Spirit Guides & Natural Reiki with Mary Lemons

October 9, 2010, 9:30-4:30

Home of Jim & Cindy Anderson  
306 Spruce Street  
Sauk City, Wisconsin

Workshop will be outdoors in the beauty and serenity of Jim & Cindy's backyard sanctuary.

## Animal Spirit Guides

Throughout the ages animals have played a significant role in many religions. In our culture they are one of the most overlooked resources for spiritual awareness & insight. Learn specific ways to access your own personal animal spirit guide. Receive his gift of qualities to help you in everyday life. Mary will meditatively lead you on a journey in which you will meet one of your animal spirit guides.

## Native American Horoscope

In Native American culture animals played an important role in teaching life lessons. The Native American Horoscope is based on widely accepted zodiacs and totems of different indigenous tribes. These Native American beliefs enrich our lives and help us understand more fully the connectedness of all life. In this seminar you will discover the animal associated with your birthday. You will attune to his energy and partner with him as you wish.

## Natural Reiki Attunement

Natural Reiki is our acknowledgement and acceptance of healing resources available to us through nature, animals, enlightened human masters, and heavenly beings. Your Natural Reiki attunement gives you a direct link to the healing powers in creation.

Your Animal Aspect Attunement of Natural Reiki will partner you with the life force manifested in animal form. Through your attunement you will access the healing powers inherent in the animal kingdom.

Your healing abilities will increase as you attune to specific animals and their unique abilities. You will be able to use this healing power on yourself and others. If you are already a Reiki practitioner or energy worker, this unique attunement will enhance your healing ability.
