

Spiritual Journey with Animals  
Sunday October 9, 2011 2:00-5:30  
Church of the Covenant, Greensboro, NC

Throughout the ages animals have played a significant role in many religions. In our culture they are one of the most overlooked resources for spiritual awareness & insight.

Communicating with animals and all non-human species is real and practical. Talking spiritually with your pet or a wild animal can affect the physical, emotional, mental, and spiritual health of both that animal and yourself. In addition to helping with animal behavior, heart-centered animal communication deepens your relationship with all species, living or deceased.

During this workshop you will access your own personal animal spirit guide. He will gift you with qualities to help you in everyday life. Also Mary will share with you fundamentals of communicating with animals so you can create your own bridge between species.

Registration for Spiritual Journey with Animals is being handled through the Church of the Covenant Mandala Program. Until their website is updated with registration details, please contact Mary Lemons at 704-984-1099 or via email [marylemons@healingwholeself.net](mailto:marylemons@healingwholeself.net).
